February 17, 2009

Dear Sir/Madam;

It is with great enthusiasm that I express my gratitude and admiration to the Diaper Bank.

Their services have helped many of our clients obtain some form of economic peace by providing diapers to those families who are truly in financial need. With the Diaper Banks support many of our clients have learned the power of parenting by embracing the challenges and benefits of economic self-sufficiency.

In addition, adequately supplying diapers for these vulnerable families the Diaper Banks helps mother and child get a little closer to one another by not stressing the need of replenishment. The Diaper Bank has brought a new meaning to the word "change" one diaper at a time.

The Diaper Bank is a very much needed service for the families in our communities. Please support the Diaper Bank by not cutting its funding; hundreds of babies depend on it.

Respectfully,

Guadalupe Valentin
Intervention Specialist
